

Anti-Nitazene (Clone BO6)

SKU: NITABBO6

Product type: Recombinant monoclonal antibody

Immunogen: Nitazene-KLH

Host species: Rabbit

Isotype: Rabbit IgG κ 1

Amount: 1 mg

Formulation: Lyophilized. To reconstitue, add 1 mL pure water to the tube, the reconstituted product will be 1 mg/mL in PBS.

Storage: Store lyophilized and reconstituted product at 2 to 8°C. The product is stable for 1 year after receiving.

Applications: Lateral flow; ELISA.

Specificity: isotonitazene reactivity 100%; metonitazene reactivity 100%. The cross reactivity for the following compounds were undetectable.

1-(3-chlorophenyl) Piperazine	Bilirubin	Desipramine	Galactose	Loperamide	Niacinamide	Pentazocine	Tetrahydrocortisone
2-methoxymethcathinone	Boric acid	Dextromethorphan	Gamma globulin	Maprotiline	Nicotine	Perphenazine	Tetrahydrozoline
6-Acetyl morphine	Buprenorphine	Diclofenac	Gentisic acid	M-Chlorophenylpiperazine	Nifedipine	phenacetin	Theophylline
Acetaminophen	Buprenorphineglucuronide	Diflunisal	Glucose	MDMA	Norbuprenorphine	Phencyclidine (PCP)	Thiamine
Acetone	Bupropion	Digoxin	Haloperidol	Medetomidine	Norcodeine	Phenelzine	Thioridazine
Acetophenetidin	Caffeine	Dihydrocodeine	Hemoglobin	Meperidine	Norethindrone	Phenobarbital	Tilidine
Acetylsalicylic acid	Carbamazepine	Diphenhydramine	Heroin	Meprobamate	Norketamine	Pipamperone	Tramadol
Albumin	Ceftriaxone	DL-Tryptophan	Hydralazine	Metamizole	Normeperidine	Prednisone	Tramadol-N-Desmethyl
Albuterol	Chloral hydrate	DL-Tyrosine	Hydrochlorothiazide	Methadone	Normorphine	Procaine	Tramadol-O-Desmethyl
Aminopyrine	Chloramphenicol	Doxepin	Hydrocodone	Methamphetamine	Noroxycodone	Propoxyphene	Trazodone
Amitriptyline	Chlorothiazide	Duloxetine	Hydrocortisone	Methapyrilene	Nortriptyline	Propranolol	Triamterene
Amobarbital	Chlorpromazine	Ecgonine methyl ester	Hydromorphone	Methaqualone	Noscapine	Pseudoephedrine	Trifluoperazine
Amoxicillin	Cholesterol	EDDP	Hydroxytyramine	Methoxyphenamine	Octopamine	Quinidine	Trimethoprim
Amphetamine	Ciprofloxacin	EMDP	Ibuprofen	Metronidazole	Ofloxacin	Quinine	Tyramine
Ampicillin	Clomipramine	Ephedrine	Imipramine	Morphine	O-Hydroxyhippuric acid	Ranitidine	Urea
Apomorphine	Clonidin	Erythromycin	Isoproterenol	Morphine-3-glucuronide	Oxalic acid	Riboflavin	Uric acid
Ascorbic acid	Cocaine	Ethanol	Isoxsuprine	N-Acetylprocainamide	Oxazepam	Risperidone	Valproic acid
Aspartame	Codeine	Etomidate	Ketamine	NaCl	Oxolinic acid	Salicylic acid	Venlafaxine
Atropine	Cortisone	Fenopropfen	Ketoprofen	Nalidixic acid	Oxycodone	Secobarbital	Verapamil
Benzilic acid	Cotinine	fentanyl	Labetalol	Naloxone	Oxymetazoline	Serotonin	Xylazine
Benzocaine	Creatinine	Fluoxetine	Levorphanol	Naltrexone	Oxymorphone	Sulfamethazine	Zomepirac
Benzoic acid	Cyclobenzaprine	Fluphenazine	Lidocaine	Naproxen	Papaverine	Sulindac	β -Estradiol
Benzoylcegonine	Deoxycorticosterone	Furosemide			Penicillin G	Tapentadol
